Senior Site Reliability Engineer | Kubernetes, AWS & Platform Reliability

SUMMARY

Senior Site Reliability Engineer with **18+** years of experience keeping customer facing platforms healthy, performant and right sized. Primary point of contact for the health, performance and capacity of services on the Kubernetes based Guidewire Cloud Platform (GWCP) in AWS. Takes pride in building platforms that are highly scalable, highly available, secure and low latency.

WORK EXPERIENCE

Guidewire Software Inc, San Mateo, USA *Jan 2023 – Present*
Senior Site Reliability Engineer

- Built a DR solution reducing RTO (Recovery Time Objective) from **6h** to **30min**.
- Ensured **99.99%** uptime across **100+** microservices by optimizing Kubernetes clusters.
- Migrated legacy workloads to the next generation Kubernetes platform.
- Mentor and guide a distributed team of senior SREs across **3** regions (US, EMEA & APAC).
- Program lead for Guidewire Production Readiness (GPR) to assess and provision new services to production.

Groupon Inc, Santa Clara, USA *Feb 2017 – Jan 2023*
Team Lead, Site Reliability Engineering

- Program lead for load balancer infrastructure processing **10K** RPS.
- Led the effort to migrate on-prem services to our cloud partner AWS.
- Analyzed system performance, identified problems, and designed, developed and implemented solutions.

Groupon Shared Services Private Limited, Bengaluru, India *Aug 2015 – Feb 2017*
Senior DevOps Engineer

- Partnered with product teams to embed SRE practices early in the SDLC, reducing production incidents by **40%**.
- Migrated the VIS infrastructure from LUP1 to DUB1 and from SNC1 to SAC1.
- Supported the infrastructure of the NTTHK data center for Tiger countries including Indonesia.
- Responsible for DevOps and release engineering for a highly scalable cloud commerce platform.

Thermo Fisher Scientific India Private Limited, Bengaluru, India *Apr 2014 – Jul 2015*
Senior Site Reliability Engineer

- Automated infrastructure on AWS using Chef and CloudFormation.
- Ensured scalability and reliability of production servers.
- Mentored new joiners and junior members of the team.

LinkedIn Technology Information Private Limited, Bengaluru, India *Nov 2011 – Feb 2014*
Team Lead, Site Reliability Engineering

- Built a team of **10** and started NOC operations from the Bangalore office.
- Served as Technical Escalation Manager during the India time zone.
- Assisted in the roll-out and deployment of new product features to support rapid iteration and constant growth.

Cisco Systems India Private Limited, Bengaluru, India *Sep 2010 – Nov 2011*
IT Engineer

- Designed and automated DR, reducing failover time by **50%**.
- Migrated a business critical application from the SJ to the RCDN data center.
- SME of messaging infrastructure for the Tibco implementation of JMS, BPIM and WSG.

Yahoo Software Development India Private Limited, Bengaluru, India *Mar 2008 – Aug 2010*
Production Engineer

- Ensured data flow across pipelines and delivered data to customers within SLA.
- Installed, configured and deployed RedHat and FreeBSD servers.
- Built systems, application installation, testing, cluster management & validation of delivered data.

Google India Private Limited, Hyderabad, India *Jul 2007 – Jan 2008*
Associate System Administrator

- Managed the regional data center.
- Configured, deployed and managed internal services in APAC and EMEA.
